

# Photo List 2016

## Sustainability in Practice (SIP) Certification

This document provides a list of photograph documentation for the SIP Vineyard Certification Standards so that you can take all the photos needed at once. Questions marked the "REQ" are Required for certification.

### Photos

---

- 1.1.5. Alternate row mowing and tilling of row middles
- 1.1.6. Insectary plantings
- 1.1.7. Owl/bat box
  
- 2.1.11. Arial Photographs
- 2.4.4. Before and after leaf removal
  
- 3.1.7. Chemical storage facility locked and posted
- 3.1.8. Pesticide storage spill containment design
- 3.1.9. Store liquid and dry materials separately. Dry materials above spill zone.
- 3.1.10. Mixing and loading site with low runoff
- 3.1.11. Diesel and gas tank secondary containment
- 3.2.2. REQ Winter cover crop
- 3.2.3. REQ Offsite movement of sediment and organic soil amendments (cover crop, filter strip, mulching, hay bales/straw, jute netting, slit pond, waddles, vegetated ditches, other)
  
- 4.1.1. REQ Backflow prevention device
- 4.1.2. REQ Wellhead protection
- 4.3.4. Aerial images for irrigation decisions
  
- 5.1.8. Irrigation pumping variable speed drive
- 5.1.9. All Terrain Vehicles (ATVs)
- 5.1.13. Renewal energy sources including solar, wind, or other alternative power
  
- 6.1.2. REQ Speed limit signs
  
- 8.5.3. Width of the weed free swath under the vine throughout the growing season
