

# Prohibited Materials List 2024

## Sustainability in Practice (SIP) Certified

Information obtained from the Department of Pesticide Regulation based on flagged materials registered for use on grapes. Due to the fluctuating registrations of many materials, trade names are not listed. It is the responsibility of the applicant to list trade names and active ingredients on documentation. The active ingredients on this list cannot be used on certified acres between December 1, 2023 and November 30, 2024. See Standard 9.1.1 and 9.1.2.
